INFORMATION DISCLOSURE STATEMENT

Sir:

The Examiner is respectfully requested to consider the references, copies enclosed, which may qualify as prior art. For the Examiner's convenience, the references are listed on the attached Patent and Trademark Office form PTO/SB/08a. Pursuant to 37 C.F.R. 1.98(a)(2)(ii), copies of cited U.S. patents publications are not included, but will be provided upon request. Copies of eight foreign patent references and one non-patent reference are enclosed herewith.

This information is cited in a spirit of forthrightness and cooperation to enable the applicants to obtain that measure of protection for the invention to which there is entitlement. However, no representation is made that the listed art actually qualifies as prior art under the patent statute and the mere use of PTO/SB/08a is not an admission that all listed references are prior art. No representation is made that applicants know of the best art.

The examiner is advised that the included foreign patent references are published in Japanese. Applicants are not in possession of a complete English translation of these patents, however, English translations of the patent abstracts for these references are enclosed herewith.

The following foreign patent references are relevant given that they are included in the search report for corresponding International Application PCT/JP2005/005874: JP 11-20059, filed January 26, 1999, JP 2003-326609, filed November 19, 2003, JP 2003-105975, filed April 9, 2003, JP 2001-181954, filed July 3, 2001, JP 1-306664, filed December 11, 1989, and JP 60-59121, filed April 5, 1985.

International PCT Patent Publication WO 00/21742 is provided in Japanese. Applicants are not in possession of a complete English translation of this reference. The relevance of this reference can be found in the English translation of the abstract and the title of this reference, "Reinforcing Fiber Base for Composite Material."

Japanese Patent Publication JP 2003-301346 is provided in Japanese. Applicants are not in possession of a complete English translation of this reference. The relevance of this reference can be found in the English translation of the abstract and the title of this reference, "Mesh Sheet for Civil Engineering."

It is believed that this submission does not require the payment of a fee. If this is not correct, please charge any required fee to deposit account no. 07-1969.

Respectfully submitted,
